

CFIT-Flex™ Cable Storage Enclosure

Accessory enclosure provides add-on rear cable fiber storage compartment for CFIT-Flex Compact Enclosures

The CFIT-Flex Compact Universal Enclosure provides a flexible, multi-functional solution for fiber demarcation requirements within virtually any application. Often during deployment there is an excess of feed cable that needs to be stored. For such cases the CFIT-Flex Cable Storage enclosure provides the solution. It can be quickly and easily mounted behind a CFIT-Flex Compact enclosure to provide efficient cable storage without using any additional real estate. Mounted cable spools and removable entry/exit port plates facilitate storage and access.
